Ilya Kalinkin

UX/UI designer

An experienced UX/UI Designer skilled in user research, concept development, interface design, and prototyping.

- Dedicated to delivering solutions that add value and seamlessly align with user needs and business goals;
- Leverage research to inform and validate design decisions;
- Adept at collaborating with project managers, developers and other stakeholders at every stage of the design process.

Recent work experience

UX/UI designer

Web Systems OÜ & Semiway OÜ, Estonia, 01/2022 – 04/2023
Joined Web Systems following the merging of Semiway with Web Systems.

- Designed and delivered e-commerce, digital products, and website projects for diverse clients.
- Performed comprehensive competitive analysis and produced user flows, wireframes and interactive prototypes, ensuring seamless user experiences.
- Conducted usability tests, gathering valuable feedback for iterative design improvements.

Freelance UX/UI designer

02/2020 – 09/2021

- Collaborated with diverse clients to create engaging user experiences for their digital products.
- Conducted user research and utilised user-centred design principles to create personas, user flows, wireframes and interactive prototypes.

UX Intern

Noesis.tech, India, 08/2019 – 10/2019

- Developed community platform concept and created a landing page experiment for validating concept idea.
- Applied Lean UX principles in order to minimise risks and ensure product-market fit.
- Conducted comprehensive user research and competitive analysis to ensure project success.

Front-end Intern

Noesis.tech, India, 04/2017 – 05/2017

- Enhanced the usability of the mobile version of a learning management system, applying Gestalt principles of visual design to improve UX.
